Come be a part of Foundations Pediatric Therapy's innovative program where play and movement are used to encourage, establish and transfer the acquisition and development of speech, language and communication skills in a fun and motivating way.

Caregivers are always a part of the team at Foundations and support for carryover of skills is a part of every session.

We will address skills such as:

- speaking first words
- clear communication and production of sounds
- following and giving specific and clear directions
- sequencing, retelling and creating stories
- building a variety of language based pre-literacy and literacy skills
- establishing and practicing the skills needed to make and keep friends
